- Helps curb appetite
- May promote a feeling of fullness
- Promotes healthy weight management
- Helps promote weight loss
- Supports metabolic balance and wellness
- Moderates glycerol-3-phosphate dehydrogenase enzyme activity to reduce the amount of ingested starches that are converted to triglycerides and stored as fat
- Supports levels of adiponectin to help maintain healthy insulin sensitivity
- Helps maintain normal blood sugar levels

CONTACT INFORMATION

FIND YOUR SLIM WITH TLS® TRIM CAFÉ!

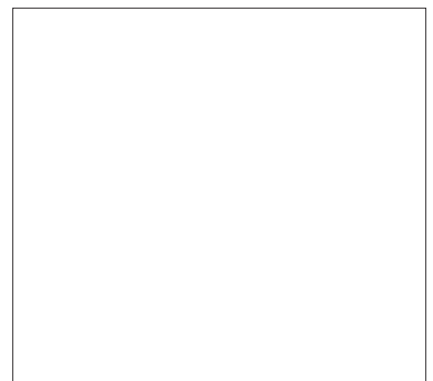

WHEN USED IN CONJUNCTION WITH A REGULAR EXERCISE routine and balanced diet, trim café may promote an effective, multi-layered method to weight loss.

TLS trim café contains Colombian Arabica Coffee powder and WellTrim® iG⁺ (Irvingia Gabonensis/African Mango). With WellTrim® iG, trim café provides three main mechanisms of action to promote healthy weight loss: fullness, appetite control and metabolic balance.* WellTrim® iG is also clinically shown to help reduce body weight, body fat, and waist circumference over time.*†

DIRECTIONS FOR USE: Mix one stickpack (3.3 g) with 7 fl. oz. of hot water. May use more or less water, based on personal taste preference. As a dietary supplement, it is recommended you take once daily, or as directed by your healthcare provider. Most effective if taken 30-60 minutes before a meal, but not required.
